

Chairs Report 2022/2023

Tom has just started Y4. I became involved with PTA in September 2019 as committee member, becoming Chair in September 2021. Completed two academic years.

Being part of a small team is great fun especially when we hold events and it's all hands to the pump. Even though some of us have specified roles on paper, there is a cross over when we hold events.

When you read the list of events, that as a team we created, we should all be immensely proud.

I just want to make mention that unless you have been to an organised PTA event, such as a cake sale or Christmas Fayre you don't appreciate the chaos that happens. I do like to use the phrase "If you build it, they will come".

I know that we all have busy family lives and juggling the PTA as well is 'Hard Work' but WE have managed to pull together and have another successful year.

We must be doing something right as the new members that joined us last year are still sat around the table this year.

I hope moving forward we continue to gain more support and build upon what we have previously achieved.

I'm excited for the next academic year and keen to stay committed with the PTA, especially as its Toms last year.

Moving Forward :
