

Year 4 Topic Homework Autumn

Dear Parents/Guardians,

This half term our topic is 'Polar Regions'.

For their project, we would like the children to focus on an aspect of their learning. How your child presents their task is up to them, however there should be some written work included.

You could include:

- A model
- A poster
- An adventure story set in The Arctic or Antarctica
- Facts about an animal and how it survives in these harsh habitats
- A newspaper report or fact file about the discovery of Shackleton's ship 'The Endurance'.

Remember that this is only a list of potential ideas! You may have different ones! Have fun with your learning!

We would like the children to bring in their finished work on 25th February to showcase to the whole year group.

Thank you,

Miss Ayling and Miss Howse
